A Recognized School of Excellence

Green School Initiative for Mine Hill Board of Education

The Board of Education and administrators are committed to making all efforts in implementing and establishing green methods and procedures throughout the Canfield Avenue School. The Board has approved to be part of Sustainable New Jersey and accordingly support all efforts to efficiently and effectively implement green activities. The following are the areas that currently are green or committed to be green this school year:

- We currently use only Green custodial/cleaning products throughout the school.
- The Board has implemented a “paperless” board meeting model in 2013 and continue to work reduce the use of paper when online options are available.
- Recycling efforts throughout the building with recycling bins in all classrooms and offices and recycling containers in the lunch room for students.
- The purchase of any equipment will meet “energy efficiency” ratings.
- Recycle all printer cartridges.
- “Brown out” times be implemented when school is in and out of session. These days will be agreed upon with administration.
- “Lights office” policy in rooms and areas that are not in use and hallway lights out after school is out of session.
- Student “Green Team” will be established at the beginning of each school year and the “green team” should include teachers, staff and students. The Green team will meet at least monthly and establish goals for the year. The green team will coordinate activities and monitor the implementation and maintenance of efforts through the year. Annually a report of accomplishments will be given to the Board of Education.
- Infrastructure/Building maintenance efforts will include green methods, energy conservation, energy efficiencies and recycling efforts.
- Long Range Facility Projects will include energy efficiencies, energy saving methods and green options in its design and implementation.
- School activities will infuse healthy living options and will include energy conservation, recycling and pro-earth information.
- Any other efforts deemed reasonable and efficient in nature by the Board and Administration.

Approved By

Ms. MaryJo Walilko, Board President

Mr. Lee Nittel, Superintendent

Ms. Melissa Simmons, Business Administrator/Board Secretary
